A slow moving weather pattern developed during the first two days of May and supported a couple rounds of thunderstorms both on Saturday and Sunday. While our area was spared the larger severe weather outbreak, we did manage to have a few rounds of severe storms on Saturday evening and then again Sunday afternoon. The most significant storms occurred Sunday afternoon and brought large hail, between golf ball and baseball sized, to portions of central Mississippi.

MADISON COUNTY --- 3.6 NE DAVIS [32.71, -89.98]

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
	05/29/10 18:47 CST		0	Hail (0.88 in)
	05/29/10 18:49 CST		0	Source: Public
The hail fell on Tithelo Road.				
CHOCTAW COUNTY 5.8 NNE FRENCH CAM	IP [33.38, -89.36]			
	05/30/10 16:20 CST		0	Hail (1.00 in)
	05/30/10 16:22 CST		0	Source: Public

Quarter size hail fell on Henderson Road, along with estimated 40mph winds.

An upper level low over Mississippi combined forces with a warm, moist and unstable air mass to trigger several severe thunderstorms on May 28th and 29th. A couple storms developed on May 30th as well, but the bulk of the activity was on the prior two days. Reports of damaging winds and large hail in excess of 1 inch were received across the state.
